**The Electroherbalism Frequency Lists** Brian McInturff, 2006-11-10 The Electroherbalism Frequency Lists, Third Edition, contains frequencies that people use for electrotherapy instruments such as EMEMs, Rife machines, Rife-Bare devices, function generator pad devices, Hulda Clark function generators, Tesla therapy devices, and other alternative bioelectronic instruments. This compilation includes the Consolidated Annotated Frequency List and the Non-Consolidated Frequency List, also known as the CAFL and NCFL, and the newly revised CAFL Cross Reference List (CAFL XREF) as well as the chapters Introduction to Alternative Bioelectronic Therapy Devices, Electrical and Frequency Effects on Pathogens, and James Bare's Understanding Our Frequencies Through Harmonic Associations. The Electroherbalism frequency lists are some of the most-used references for frequency researchers the world over.

**Energy Medicine Technologies** Finley Eversole, 2013-05-20 New and suppressed breakthroughs in energy medicine, ways to combat toxins and electromagnetic fields, and the importance of non-GMO foods • Explores the use of microcrystals, ozone and hydrogen peroxide therapy, and how to tap in to healing antioxidant electrons from the Earth • Reveals the scientifically proven health risks of genetically modified foods • Examines the suppressed cancer-curing electromedicine of Royal Raymond Rife and Nobel laureate Albert Szent-Györgyi Natural, nontoxic, inexpensive, and effective alternatives to conventional medicine exist, yet they have been suppressed by the profit-driven medical-pharmaceutical complex. Presenting a compendium of some of the most revolutionary yet still widely unknown discoveries in health and energy medicine, this book edited by Finley Eversole, Ph.D., explores the use of microcrystals to harmonize the energies of body, mind, and environment; the healing effects of ozone and hydrogen peroxide therapy; ways to combat electromagnetic fields and environmental toxins; sources of disruptive energy that cause stress and health problems, including other people's negative emotions; and how to tap in to healing antioxidant electrons from the Earth. The book reveals the scientifically proven health risks of genetically modified foods--the first irreversible technology in human history with still unknown consequences. It looks at the link between industrial farming and the precipitous rise in heart disease, cancer, diabetes, and Alzheimer's over the past 100 years, providing a 10-point Low-Toxin Program to reduce your risk. It explores the cancer-curing electromedicine of Royal Raymond Rife and its suppression by the medical establishment as well as Nobel laureate Albert

Szent-Györgi's follow-up discovery of Frequency Therapy. Offering a window into the holistic future of medicine, the book shows the body not simply as a biological machine to be patched and repaired but as a living organism made up of cells dynamically linked to their inner and outer environments.

**When Antibiotics Fail** Bryan Rosner, 2005 WHY RIFE MACHINES? Lyme Disease is caused by *Borrelia Burgdorferi*, a spirochete bacteria similar to the bacteria that causes Syphilis . Lyme Disease is known as the "Great Imitator" - It can masquerade as Attention Deficit Disorder , Chronic Fatigue Syndrome , Fibromyalgia, Obsessive Compulsive Disorder , Alzheimer's Disease , Schizophrenia , Depression , Multiple Sclerosis , arthritis , heart conditions, and more. The July, 2004 issue of Townsend Letter for Doctors and Patients indicates that Lyme Disease is thought to be the fastest spreading infectious disease in the world, with more than 200,000 new cases per year in the United States alone. Lyme Disease tests are notoriously inaccurate, leading to rampant under-diagnosis of the disease (See Appendix A ). But even the people who are lucky enough to receive an accurate diagnosis do not always respond to antibiotic therapy. Aggressive antibiotic therapy, applied by a Lyme Literate Medical Doctor (LLMD), sometimes fails to provide a cure. Many patients take antibiotics for years, often in combinations of two or three drugs simultaneously - yet in some cases the infection becomes chronic anyway, and numerous Lyme Disease sufferers end up staying sick, losing their jobs, getting dropped by insurance companies, going broke, and losing hope. These monumentally discouraging obstacles facing Lyme Disease sufferers have led many of them to explore the rife machine treatment option, a promising electromagnetic therapy which often works after antibiotics fail.

*Rife's World of Electromedicine* Barry Lynes, 2009-02 In 1987, Barry Lynes wrote the classic book on Rife history called *The Cancer Cure That Worked*. *Rife's World of Electromedicine* is the sequel, published in 2009. What is the difference between the two books? *The Cancer Cure That Worked* was primarily a biographical account of Royal Raymond Rife's life and work, including detailed, dated records of the events which occurred, and in-depth accounts from the people involved. *Rife's World of Electromedicine*, on the other hand, is a bird's eye view, short summary of the same time period and events. Instead of a detailed biography, *Rife's World* is an expository piece that includes brief, targeted chapters addressing each aspect of Rife's era, utilizing piercing, specific, and direct quotes and excerpts from historical documents including magazine and newspaper articles, court transcripts, Rife's own statements, and the eye-witness accounts of those who were present during Rife's lifelong achievements. Written as a short story, *Rife's World* is affordably priced so that everyone can read about Royal Raymond Rife. The book is a perfect gift for someone who wants to find out more about Rife but doesn't have time to read a longer book. Additionally, the new book explains what 20+ years of additional research and document retrieval by a dedicated grass roots group have discovered and unearthed. Some of the previously missing, key factors in the suppressed and censored cure for cancer were lost or even locked away in physicians' closets for decades in order to prevent censors

from destroying overwhelming evidence. Now, this evidence is printed for the first time in Rife's World.

**The Frequencies of Rifing** Ing. Marcello Allegretti, 2016-03-04 Rife Machines are spreading throughout the world and is a topic of interest that is growing fast. Most of the time, those who own such an electronic device, do not know how to use it to its full potential. This is especially true regarding how many frequency sets exist today and what frequencies can be used as a potential solution for a particular problem. With many Rife devices, they come with software that has preloaded frequency sets. Others rely on information that you can get from other sources - even online from the web. However, this information is typically listed in alphabetical order. This makes it extremely difficult to identify all possibilities or alternative sets that one may wish to use in their experiments for any given condition. In this guide, for the first time, you will find all the frequency sets used on a Rife Machine - both known and experimental. They are arranged accordingly to a set of criteria and relevance making cross reference searches possible. More than 6200 frequency sets are listed (127 pages, full color). They cover the human body organs, pathogens, diseases, homeopathic products, minerals, vitamins, chakras, and more. They are sorted and catalogued in a way that makes it much easier to locate the information that will allow the best program choices. Each entry in the guide (Subject or Argument) is also followed by 'Author of the set of frequencies (eg. Rife, Hulda Clark, CALF, etc.), or by explanatory Notes, by the set of Frequencies in Hz, the Organ concerned, the possible causative Condition of a state or a situation and the recommended time of exposure (in Seconds). Through the use of this guide, you can easily discover all possible frequency sets that are related to the subject of interest. Also in ebook version. Happy Rifing!

*Vital Health Quantum Resonance Magnetic Analyzer Guide* David S Lee, 2020-10-20 The Bio-Assess technology is a unique combination of simplicity and accuracy. This is an impressive technology that is very user friendly. The client is impressed & motivated to take an active part in their own health and well-being plan. David Lee has taken the technology one step further. He has introduced a system that increases compliance by increasing understanding. This is no small feat. Any health care practitioner will tell you that lack of compliance is the most frustrating impediment to healing. David Lee has disintegrated that barrier. Ted Aloisio, BA, CNM, EDT Author of three books including the best seller Blood Never Lies. David Lee has created a simplified system for interpreting & utilizing the Bio Scan program. His approach to explaining what the results mean in plain English is what makes his program so valuable. Incorporating the Bio-Health Assessment with his nutritional and health consultation forms gives consultants all the information they need to give their clients the best advice possible. There are about 30 trillion cells in the adult body. Most of them divide and renew themselves. At the atomic level of each cell, the nucleus and the electrons are changing at high speeds. As they do this, they radiate electromagnetic waves constantly outward. Each cell of the body, whether it be in a healthy, sub-healthy or diseased state has a different corresponding electromagnetic wave. **Therapeutic Waves** Marcello Allegretti,2020-01-08 Diagnosing and then treating, curing and restoring a state of well-being is possible thanks to electromagnetic waves. Contrary to what one might think, they are topics of such wide application that already at the time when the author published the book *The therapeutic properties of electromagnetic waves*, he already knew that many topics of great scientific interest had been excluded. The book, which includes the one just mentioned, comprise in addition to the main and well-known technologies used for care and well-being, also those recently studied and applied. There are many pages dedicated to biological effects on human cells and tissues, the energy properties of water, harmful effects, to end with one of the most difficult topics to deal with: cancer. What the world of research has discovered and experienced over decades is hardly known to anyone, even to the experts in the medical field. In the last chapter, the author has collected the most interesting studies carried out worldwide, mainly on technologies that in many cases have evolved into recognized and approved applications for the treatment and ablation of cancer. Embracing and explaining, in the simplest possible way, such a wide range of applications with electromagnetic waves is not easy, considering that the topics covered include notions of physics as well as of medicine and biology. The text is useful to inform both professionals and those interested in knowing more about concepts, about methodologies and discoveries whose existence is often ignored. The medical world is becoming aware of the effectiveness of the technologies that apply electromagnetic waves both in the diagnostic and curative fields and, as a consequence, the old methodologies are gradually set aside. These innovative technologies are the future of medicine and having ever more precise knowledge of how cells and tissues generate, transmit, receive and react to electromagnetic waves can lead to the formulation of solutions more and more effective. Also in ebook version.

**The Cancer Cure That Worked!** Barry Lynes,1987-06 A detailed account of Rife's inventions and discoveries is the subject of *The Cancer Cure That Worked*. This startling book documents events from 1913 to the time of Rife's death in 1972. Rife was an optical engineer and technician of great skill. His first success was the building of the Universal Microscope in the late 1920s. With it he was able to view the living cancer virus -- a feat our modern, high-powered electron microscopes still cannot do. His microscope used many quartz prisms and lenses, placed to compensate for losses of refraction due to air. This enabled him to view far tinier particles than had ever been seen before. Using the Universal Microscope which he invented, he observed cancer viruses as they changed their size and form. He discovered that exposing a virus to certain frequencies of radio waves killed it quickly. Years of experimentation led to Rife's invention of the Frequency Instrument, a device that produced the exact frequencies needed to destroy various viruses. In 1934 at the clinic in California, diseased people were exposed to the exact same frequencies that had been seen (through the microscope) to destroy the virus causing their illness. Treatments lasted only three minutes. The person would wait three days before another exposure giving the

lymph system time to cleanse the dead virus from their bodies. Unlike the chemotherapy treatments currently in use, Rife's therapy was 100 percent effective and engendered no adverse symptoms. Yet, 53 years after the arrival of Rife's Frequency Instrument, hundreds of thousands of people still die each year of diseases that Royal Raymond Rife cured. The above is excerpted from a book review written by Deki and Jon C. Fox.

Under an Ionized Sky Elana Freeland,2018-02-13 It is difficult to believe that our planet has been weaponized before our very eyes, but that is exactly what has happened. First, we were seduced by the convenience of a wireless world; then, atmospheric weather experimentation in the guise of carbons “climate change” converted the air we breathe into an antenna. Now, the geo-engineering we’ve been subjected to for two decades is being normalized as the “Star Wars” Space Fence rises around and within us. Is this the Space Age we were promised?

**How To Make Someone Obsessed With You** Scarlett Kennedy,2017-08-08 You've witnessed the power that obsession has over people. People will do anything for someone they are obsessed with. Fans will travel across the world to see a celebrity they are obsessed with. A person will become a slave to someone they are obsessed with. Many people are immune to subtle signs of manipulation. The only thing people are not immune to, is falling in love, and obsession. A person obsessed with you, is a person under your control. Scarlett Kennedy uncovers the real causes of obsession, how to take advantage of it, the common types of people in the world, and how you can make them obsessed with you. Because not one size fits all. Scarlett also creates personality profiles for her targets and documents what has worked and what hasn't worked. As well as the dangers of holding all the power in your hands.

**Rife's Great Discovery** Barry Lynes,2017-05-22 Rife's Great Discovery is the final book by Barry Lynes about Royal Rife's amazing discovery that resonant frequency therapy is a valid breakthrough alternative to chemical medicine's limitations and failures. The author has devoted 30 years to this subject since his original, revolutionary book about Dr. Rife was published in April 1987 (The Cancer Cure That Worked: The Rife Report). This new, 2017 book provides incontrovertible evidence that Rife's Universal Microscope did indeed shatter the magnification barrier that limits all other optical microscopes. That's why Rife's work was suppressed through bribery and threats. Rife was on the verge of transforming health treatments and costing the medical monopoly a fortune in lost drug products and fees. Rife's Great Discovery exposes the widespread corruption that is rampant in traditional treatment practices. This book is the Cri De Coeur outcry against the miscarriage of justice done to Royal Rife and to desperate patients everywhere who suffer from many diseases. Rife's discoveries might cure millions of people if his findings were objectively tested and used. Like France's Dreyfus Affair scandal, a massive restructuring of America's cancer treatment and research program is now a growing public demand. This includes a complete overhaul of the medical education system and its basic curriculum. Royal Rife's wondrous scientific discoveries and inventions will gain historic recognition in the future. Just as the criminal actions of many medical officials will be publicly acknowledged and the long-delayed verification of Rife's findings will alter the healing fundamentals and doctoring procedures of standard medical practice.

**Healing Is Voltage** Jerry L. Tennant, M.d.,2015-10-13 Theodor Heinrich Boveri was a German biologist. He also reasoned in 1902 that a cancerous tumor begins with a single cell in which the makeup of its chromosomes becomes scrambled, causing the cells to divide uncontrollably. This was the predominant theory until 2014 when Thomas Seyfried et al proved that genetic changes were secondary in cancer. Thus physicians have been searching for the cause of cancer since the time of Hippocrates in 400 BC. Most research has been focused on finding the causes of genetic changes. Perhaps the

cause of cancer has been elusive because the evidence supports the theory that the cause is a reversal of polarity instead of biochemical. In addition, one must consider that each organ has its own battery pack: a stack of muscle batteries known as an acupuncture meridian. The reversal of polarity occurs in a battery in a circuit and the accompanying loss of oxygen with low voltage tells local stem cells to make a placenta (cancer) to attempt to correct the low voltage and oxygen via fermentation since there is inadequate oxygen to keep that organ functional. The On switch for cancer is an accumulation of electron stealers in an acupuncture circuit; the Off switch for cancer is removing the causes of low voltage and inserting enough electrons to reverse the polarity back to normal.
